

#announcements: This channel is a read-only channel used by Program Chairs to make conference-wide announcements. It is displayed on the homepage of the virtual conference website.

#general: This channel is used to discuss general conference topics. The conversation can be about anything related to EACL2021.

#live: This channel is used for live plenary sessions. It will be open to discussion during the livestream, and remain read-only outside the livestream period.

#firsttimers: This channel can be used for people who attend EACL for the first time to say Hi to each other.

Sayan Sinha @americast 6:26 PM

Hi everyone, I am the host for the social affinity event UGCL. It would be helpful if the acronym for the event name could be a part of the channel name. May I know if it would be possible to rename the channel **#social-undergraduates-at-eacl** to #social-ugcl-undergraduates-in-eacl? Thanks!

On-call volunteers will start a thread when responding to a question. And continue the conversation in the thread. Once the question is resolved, they will mark it with :checkmark: emoji.

#presenter-helpdesk: This channel is dedicated to authors and sponsors. It will follow the same convention as the **#helpdesk** channel. Questions from non-presenters should be asked in **#helpdesk**. If you accidentally asked the non-presenter-related question here, our volunteer will remove it and re-ask in the **#helpdesk** channel and @ you there.

#incidents: This channel is used to report incidents in the conference. You can request the on-call volunteer in the channel to join your Zoom meetings as a co-host to handle disruptions or delete messages in RocketChat. Simply click “Reply” button to start a private conversation with the on-call volunteer.

#professional-conduct-committee: Please use this channel to contact the Professional Conduct Committee if you need our assistance (e.g. related to a concern that might fall under the anti-harassment policy). PCC members will post here to let you know which of us are available and then you can contact us via RocketChat private message.
